

FRANKLIN COUNTY DATA CENTER
Job Posting: Jr .NET Developer

ANNUAL SALARY: \$55,000 **Excellent Benefits Package

SUMMARY

Franklin County Data Center is looking for a Jr. .NET Developer to assist with development, delivery and migration of multiple applications from legacy and non-standard technologies to a .NET environment.

ESSENTIAL DUTIES AND RESPONSIBILITIES

The successful candidate will design and develop applications from requirements documents using Microsoft's ASP.NET and C# technologies. The responsibilities also include unit, integration and system testing of assigned modules. This individual will perform software implementation tasks, including source control and deployment activities. This individual must be involved in all phases of the development process. S/he will be responsible for developing Microsoft .NET applications in line with business goals, objectives and technical requirements. Development plans will need to be revised as appropriate to meet changing needs and requirements. The developer will also write documentation to describe program development, logic, coding, testing changes and corrections. Other duties may be assigned.

SUPERVISORY RESPONSIBILITIES

None

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

EDUCATION and/or EXPERIENCE

- Two years of ASP.NET and MVC application experience, at least version 4.5, on full life cycle projects
- Strong web development and C# on n-tier architectures
- The ability to integrate into end-to-end solutions
- Knowledge of Microsoft Visual Studio development environment
- Experience with Microsoft SQL Server and data access methods
- Strong understanding of object-oriented programming concepts
- Strong interpersonal and leadership skills
- Excellent oral and written communication skills
- Knowledge of Microsoft Team Foundation (TFS) preferred
- Experience with Java and DB2 preferred

LANGUAGE SKILLS

- Ability to read, analyze, and interpret general business periodicals, professional journals, technical procedures, or governmental regulations.
- Ability to write reports, business correspondence, and procedure manuals.
- Ability to effectively present information and respond to questions from groups of managers, clients,

customers, and the general public.

MATHEMATICAL SKILLS

- Ability to work with mathematical concepts such as probability and statistical inference, and fundamentals of plane and solid geometry and trigonometry.
- Ability to apply concepts such as fractions, percentages, ratios, and proportions to practical situations.

REASONING ABILITY

Ability to define problems, collect data, establish facts, and draw valid conclusions.

Ability to interpret an extensive variety of technical instructions in mathematical or diagram form and deal with several abstract and concrete variables.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
